Professor :

On behalf of the directing staff and members of Course XXXV of the National Defence College of Canada, I wish to thank you for your interesting talk on the constitution of Chile presented to us on 31 May.

Indeed, it was fortunate for us that you with your intimate and detailed knowledge of the subject, were able to address us. We were most impressed with your ability to present a most complex and extensive subject in a logical and concise manner. We now have a good appreciation of the events and ideas that led to the creation of the current constitution and a clear understanding of its contents and their application to the political and social aspects of Chilean life.

You have contributed significantly to our studies of Latin America in general and of Chile in particular and we are most grateful. Again, many thanks and best wishes for continued success in your work.

Yours sincerely,

L.V. Johnson
